

Models & pricing > Models

Models overview

Claude is a family of state-of-the-art large language models developed by Anthropic. Compare the current lineup, find the model ID for every platform, and open each model's page for its full specs and resources.

Compare models

If you're unsure which model to use, start with [Claude Opus 5](#) for complex agentic coding and enterprise work; for the highest available capability, use [Claude Fable 5](#). All current models support text and image input, text output, multilingual capabilities, vision, and tool use; each model's page lists the platforms it is available on.

	 Claude Fable 5 Next-generation intelligence for long-running agents	 Claude Opus 5 For complex agentic coding and enterprise work	 Claude Sonnet 5 The best combination of speed and intelligence	 Claude Haiku 4.5 The fastest model with near-frontier intelligence
Latence comparative ⓘ	Plus lent	Modérée	Rapide	Le plus rapide
Tarifs ⓘ	10 \$US / MTok en entrée 50 \$US / MTok de sortie	5 \$US / MTok en entrée 25 \$US / MTok de sortie	2 \$US / MTok en entrée 10 \$US / MTok de sortie	1 \$US / MTok en entrée 5 \$US / MTok de sortie
ID de l'API Claude ⓘ	claude-fable-5	claude-opus-5	claude-sonnet-5	claude-haiku-4-5-20251001
Capacités

Using the Models API

You can query model capabilities and token limits programmatically with the [Models API](#). The response includes `max_input_tokens`, `max_tokens`, and a `capabilities` object for every available model.

Prompt and output performance

Current Claude models excel in:

- **Performance:** Top-tier results in reasoning, coding, multilingual tasks, long-context handling, honesty, and image processing. See [Prompting best practices](#) for general and model-specific prompting guidance.
- **Engaging responses:** Claude models are ideal for applications that require rich, human-like interactions. If you prefer more concise responses, adjust your prompts to guide the model toward the desired output length. Refer to the [prompt engineering guides](#) for details.
- **Output quality:** When migrating from a previous model generation, you may notice larger improvements in overall performance. If you're on Claude Opus 4.8 or earlier, see [Migrating to Claude Opus 5](#).

Get started with Claude

If you're ready to start exploring what Claude can do for you, dive in! Whether you're a developer looking to integrate Claude into your applications or a user wanting to experience the power of AI firsthand, the following resources can help.

Intro to Claude

Explore Claude's capabilities and development flow.

Quickstart

Learn how to make your first API call in minutes.

Choosing a model

Establish criteria and pick the right model for your use case.

Pricing

Complete pricing, including batch discounts and prompt caching rates.

Lifecycle status and retirement commitments for every model.

</>

Claude Console

Craft and test prompts directly in your browser.
