

aravind-ant Merge pull request [#834](#) from anthropics/aravind-ant/fix-mdx-compile 35f2eec · 2 weeks ago

.claude	Add coordinator-pattern cost cookbook: big models plan, small models ...	last month
.github	CI: fail the notebook-tests job when a changed notebook fails to exec...	last month
anthropic_cookbook	refactor: simplify notebook CI/CD by removing nbqa and papermill	11 months ago
capabilities	Replace bare <link> token that fails the site's MDX compile	2 weeks ago
claude_agent_sdk	Add the dynamic workflows cookbook to the Agent SDK series (#806)	last month
coding	docs: update all model references from Claude 4.5 to Claude 4.6 (#375)	6 months ago
cost_optimization	feat(cost_optimization): add cost optimization cookbook	2 weeks ago
evals/agentic_search	Reproduce Claude's agentic search benchmark scores in the Messages API (	2 months ago
extended_thinking	docs: update all model references from Claude 4.5 to Claude 4.6 (#375)	6 months ago
fable_5_fallback_bill...	Adjust directory	2 months ago
finetuning	Lint + Format all cookbooks/scripts (#305)	9 months ago
images	Merge pull request #793 from anthropics/cj-ant/crop-tool-zoom	last month
managed_agents	Add Managed Agents cookbooks for budgets, advisor, repo skills, and i...	3 weeks ago
misc	Clean up metaprompt notebook: clear outputs, rename CLIENT to client	last month
multimodal	Rewrite the crop-tool cookbook around a measured zoom tool	last month
observability	docs: update all model references from Claude 4.5 to Claude 4.6 (#375)	6 months ago
patterns/agents	Add async multi-agent orchestration cookbook	2 months ago
scripts	docs: update all model references from Claude 4.5 to Claude 4.6 (#375)	6 months ago
skills	docs: update all model references from Claude 4.5 to Claude 4.6 (#375)	6 months ago
tests	docs: update all model references from Claude 4.5 to Claude 4.6 (#375)	6 months ago
third_party	Lint + Format all cookbooks/scripts (#305)	9 months ago
tool_evaluation	docs: update all model references from Claude 4.5 to Claude 4.6 (#375)	6 months ago
tool_use	feat(tool_use): add threat intelligence enrichment agent cookbook (#496)	4 months ago
.env.example	docs: update all model references from Claude 4.5 to Claude 4.6 (#375)	6 months ago
.gitignore	Add content moderation cookbook	2 weeks ago
.pre-commit-config...	Pin pre-commit hooks to commit SHAs	3 months ago

📄 CLAUDE.md	Reproduce Claude's agentic search benchmark scores in the Messages API (	2 months ago
📄 CONTRIBUTING.md	remove 404ing link (#434)	5 months ago
📄 LICENSE	launch stuff	2 years ago
📄 Makefile	feat: add notebook testing scaffold with pytest and tox (#335)	8 months ago
📄 README.md	feat(cost_optimization): add cost optimization cookbook	2 weeks ago
📄 authors.yaml	Add content moderation cookbook	2 weeks ago
📄 lychee.toml	lychee.toml: list 2xx/3xx codes in accept explicitly	last month
📄 pyproject.toml	feat(managed_agents): add Fraud Review Agent with MongoDB Atlas cookbook	last month
📄 registry.yaml	Add content moderation cookbook	2 weeks ago
📄 requirements-dev.txt	fix: remove nbstripout and preserve notebook outputs	11 months ago
📄 tox.ini	feat: add notebook testing scaffold with pytest and tox (#335)	8 months ago
📄 uv.lock	feat(managed_agents): add Fraud Review Agent with MongoDB Atlas cookbook	last month
📄 uv.toml	fix: configure uv to use public PyPI	11 months ago

Claude Cookbooks

The Claude Cookbooks provide code and guides designed to help developers build with Claude, offering copyable code snippets that you can easily integrate into your own projects.

Prerequisites

To make the most of the examples in this cookbook, you'll need a Claude API key (sign up for free [here](#)).

While the code examples are primarily written in Python, the concepts can be adapted to any programming language that supports interaction with the Claude API.

If you're new to working with the Claude API, we recommend starting with our [Claude API Fundamentals course](#) to get a solid foundation.

Explore Further

Looking for more resources to enhance your experience with Claude and AI assistants? Check out these helpful links:

- [Anthropic developer documentation](#)
- [Anthropic support docs](#)
- [Anthropic Discord community](#)

Contributing

The Claude Cookbooks thrives on the contributions of the developer community. We value your input, whether it's submitting an idea, fixing a typo, adding a new guide, or improving an existing one. By contributing, you help make this resource even more valuable for everyone.

To avoid duplication of efforts, please review the existing issues and pull requests before contributing.

If you have ideas for new examples or guides, share them on the [issues page](#).

Table of recipes

Capabilities

- [Classification](#): Explore techniques for text and data classification using Claude.
- [Retrieval Augmented Generation](#): Learn how to enhance Claude's responses with external knowledge.
- [Summarization](#): Discover techniques for effective text summarization with Claude.

Tool Use and Integration

- [Tool use](#): Learn how to integrate Claude with external tools and functions to extend its capabilities.
 - [Customer service agent](#)
 - [Calculator integration](#)
 - [SQL queries](#)

Third-Party Integrations

- [Retrieval augmented generation](#): Supplement Claude's knowledge with external data sources.
 - [Vector databases \(Pinecone\)](#)
 - [Wikipedia](#)
 - [Web pages](#)
- [Embeddings with Voyage AI](#)

Multimodal Capabilities

- [Vision with Claude](#):
 - [Getting started with images](#)
 - [Best practices for vision](#)
 - [Interpreting charts and graphs](#)
 - [Extracting content from forms](#)
- [Generate images with Claude](#): Use Claude with Stable Diffusion for image generation.

Advanced Techniques

- [Sub-agents](#): Learn how to use Haiku as a sub-agent in combination with Opus.
- [Upload PDFs to Claude](#): Parse and pass PDFs as text to Claude.
- [Automated evaluations](#): Use Claude to automate the prompt evaluation process.
- [Enable JSON mode](#): Ensure consistent JSON output from Claude.
- [Create a moderation filter](#): Use Claude to create a content moderation filter for your application.
- [Prompt caching](#): Learn techniques for efficient prompt caching with Claude.
- [Cost optimization](#): Work through a cost optimization checklist on an agent, measuring pass rate and cost per task to find the Pareto-optimal configuration.

Additional Resources

- [Anthropic on AWS](#): Explore examples and solutions for using Claude on AWS infrastructure.
